Takalimiya-Rahuri, Ahilyanagar, Maharashtra, India

Career Objective

Motivated Electronics and Computer Engineering student with strong academic performance and strong interest in Embedded Systems, IoT, Python and Web Development. NAT N5 certified with interest in Japanese technology and work culture. Seeking an internship or placement opportunity where I can apply my technical skills and passion for continuous learning.

Education

B.Tech – Electronics & Computer Engineering 2024–2028
Sanjivani College of Engineering, Kopargaon | CGPA: 8.86/10

Higher Secondary Certificate (HSC) 2024
RKMM Ahilyanagar | Percentage: 82.83%

Secondary School Certificate (SSC) 2022
Gurukul English Medium School, Takalimiya | Percentage: 90.60%

Technical Skills

- **Programming Languages:** Python, C, Java
- **Database:** MySQL, MongoDB, PostgreSQL
- **Web Technologies:** HTML, CSS, Flask, MERN
- **Python Libraries:** NumPy, Pandas, Matplotlib
- **Embedded & IoT:** Arduino, ESP8266, Microcontroller & Microprocessor
- **Tools:** Google Colab, VS Code, Eclipse, MySQL Workbench, Proteus, Power BI, MATLAB, GitHub

Internship

Web Development Intern – The Skybrisk June 2026 – July 2026

- Developed a full-stack ERP web application using MERN Stack.
- Improved frontend UI, debugging, and optimized application performance.

Academic Projects

Smart Tap Water Dispenser (Arduino Concept Project)

- Designed an automatic touch-free water dispensing system using Arduino, ultrasonic sensor and relay module.
- Improved hygiene and reduced water wastage through contactless operation.

Air Quality Monitoring System (ESP8266 & IoT)

- Developed an IoT-based air quality monitoring system using ESP8266 with environmental sensors.
- Monitored pollution levels, temperature and humidity through sensor integration.

MediFind – Medicine Management Website

- Developed a responsive medicine information website using HTML, CSS and JavaScript.
- Designed a user-friendly interface for better accessibility and usability.

ERP Management System (MERN Stack)

- Developed a full-stack ERP application using React, Node.js, Express and MongoDB for employee management.
- Designed responsive UI and implemented efficient data management features.

Certifications & Activities

- Digital Circuit – NPTEL Course Certification
- NAT N5 Japanese Language Certification
- Ohayou Japan 2025 Certificate
- C Programming for Embedded System
- Python Programming Course Certification
- MATLAB Onramp Workshop – MathWorks

Languages

- English – Intermediate
- Hindi – Fluent
- Marathi – Native
- Japanese – NAT N5 Certified | JLPT N4 Learning
